

Grants & Funds

Grants by Program Area

The NCCF's grantmaking reflects our fund-holders and donors' commitment to a number of causes that are critical to our state, with a focus on education initiatives (not to include scholarships) and human services, which increased dramatically this year to reflect these challenging economic times.

Funds by Type

Agency and Designated make up nearly half of our funds, a testament to the forward-thinking nonprofit leaders and individuals who, respectively, recognize the powerful relationship between endowed giving and the sustainability of organizations and causes. Affiliate Unrestricted funds fuel our affiliate partners' annual grants programs to meet needs in communities across the state. The remaining fund types are all directed and recommended by the donors, based on charitable interests and intents.
